

# IS YOUR TMS SHIPPING BACKED BY EXPERTS?

## MEET THE TEAM BEHIND YOUR TMS TECHNOLOGY

TMS shipping technology can deliver deep benefits. To turn TMS into a game-changer, you need a team of position players outside the software.

---

### **Carrier Strategy Experts**

Evaluate your carrier network, develop your optimal procurement strategy, secure best pricing and contracts, then we enable you to execute in your TMS based on business rules we help you refine.

---

### **Invoice Audit All-Stars**

True efficiency gains require more than a match-based audit player. Capture and consolidate invoices, validate accuracy, resolve errors, complete reconciliation, settle claims and allocate labor to other priorities.

---

### **Technology Investors**

Bearing the cost and expense of keeping pace with rapid technology advancements, a hybrid-digital solution provider can keep you on the bleeding edge without sacrificing your profit in the process.

---

### **Intellectual Capital Coaches**

Expert partners with experience across hundreds of supply chains in diverse industries can guide you through challenges, help define business strategy, understand your requirements and build processes into the TMS that support your strategy.

---

### **Supply Chain Measurement Monitors**

Compliance mechanism outside TMS gathers data elements to monitor usage and decision-making and drive downstream activity that ensures alignment with business strategy, measures performance and evolves adjustments based on industry changes and growth opportunities.

---

Meet the talented team of experts powering Transportation Insight's TMS shipping technology, and find out why more than 750 clients rely on our solutions to support their modern supply chain.
